

Bexizole

Peppermint 187mg Capsule

Composition : Each cap. contains Peppermint oil extract powder 187 mg and other ingredients.

Description :

When it comes to digestive pain higher up in the digestive tract, such as heartburn due to GERD & Intense Constipation, Bexizole (peppermint) is highly recommended. Peppermint calms the muscles of the stomach and improves the flow of bile, which the body uses to digest fats. As a result, food passes through the stomach more quickly. Peppermint relaxes the muscles that allow painful digestive gas to pass.

Indications :

Highly Effective for the treatment of Hyperacidity, Gas related abdominal pain, Constipation, Ulcerative colitis, Irritable bowel syndrome.

Dosage :

Adults: 1 (one) capsule 2 times daily before meal or as directed by the reg. physician.

Drug Interaction :

Does not interact with other medicines.

Side Effects :

No Side effects in recommended dosages.

Contraindications :

Contraindicated for the patients who have sensitivity to Peppermint.

Pregnancy & Lactation :

Only if doctor recommends.
